Product Name: HPE Storeonce Backup Solution

Product Manufacturer: HP

Product Description: Disk Based backup solution

(Attach Product Technical Sheets)

see attached sheet

Additional Comments: Cost effective solution to remove tape based backup in district and is highly scalable

## EVALUATION CRITERIA

### A. Product Reliability

#### 1. Vendor / Product track record

HP has other items on standards, including SAN which is very similar  
based product

#### 2. Vendor support required

Initial install and maint contract afterwards  
can be purchased

#### 3. Ease of use

Plug and play, configured backup solution to use  
this solution as its medium...

#### 4. Support required by RIC / school district

none

#### 5. Potential to become "White Elephant"

6. Training requirements

none previous use of backup software works with this solution

B. Product-Price / Acquisition

1. Cost effectiveness

Great backup solution for a lot less than current disk based solutions  
offered by Dell or Exagrid currently

2. Acquire via NYS Contract or local bid

NYS Contract

3. Cost of operation and support

For the unit we are looking at for Fillmore the cost is a little over \$7000  
thats with install and 3yr support

4. Do any legal or contractual issues exist

C. Product-Relationship to Other Standards

1. Compatibility to existing Standards

Exagrid, Idealstore

2. What other options are available

Other models are available for different sized districts and also works with Veritas Backup Exec or Veeam

3. Relationship to previous research and changes since that time

D.

BOCES-Service Needs

1. Define and explain the current need

Getting smaller districts away from their typical cheaper tape based backup solution

2. What existing CoSer and RIC Service does it fall under

Server Backup

3. What is the scope and size of the school population to be served

Will be for lots of different sized schools that need to implement newer and cheaper solution... Fillmore has 800 faculty/staff/students

4. Instructional and/or administrative goal supported

Local backup solution for districts server needs and is very scalable

5. Results of survey determining school district interest in using this product

Canisteo-Greenwood has purchased this directly and is going to be implementing very soon for their growing time sensitive needs
